Applicant:
Southern California Gas Company

Agent:
Rincon Consultants, Inc.

Project Name:
Line 2001, Pigging Project, Temporary Span Support

Receiving Water:
Unnamed ephemeral wash

Project Description:
Movement of pigging equipment and water through a portion of Line 2001, installation of temporary span supports on open-air areas greater than 80 feet

Contact at Regional Board:
Zack West (909) 320-6367 file # 332003-19-ZW

Applicant:
Warren Williams

Agent:
Zully Smith

Project Name:
County Line Channel Flood Control Project

Receiving Water:
Cucamonga Creek Channel major tributary is Santa Ana River

Project Description:
Connect proposed channel to existing Cucamonga Creek Channel

Contact at Regional Board:
David Woelfel (909) 782-7960 file # 332003-10-DGW

Applicant:
Don Hoppe

Agent:
Noel Davis

Project Name:
Laguna Lake Restoration Project

Receiving Water:
Laguna Lake and associated drainages that drain to the Brea Channel and eventually the San Gabriel River

Project Description:
The City of Fullerton recently secured funds from the California State Coastal Conservancy to restore the lake to improve habitat quality and public enjoyment as well as to improve downstream water quality.

Applicant:
County of Orange Public Facilities & Resources

Agent:
P & D Consultants

Project Name:
Serrano Creek Maintenance Program

Receiving Water:
Serrano Creek

Project Description:
The Serrano Creek Maintenance Project consists of maintenance activities to be conducted in accordance with the Serrano Creek Maintenance Manual, dated November 2001. The maintenance activities would be conducted in the segment of Serrano Creek that extends 5,255 linear feet east of Bake Parkway, within a designated 50-foot maintenance zone. The main creek channel is devoid of vegetation due to scouring, periodic maintenance operations, and recent, permitted construction of stabilization structures. The maintenance zone incorporates approximately 5.8 acres of federally jurisdictional waters, of which 0.2-acres are considered wetlands. All potential impacts to jurisdictional waters associated with the proposed maintenance activities are considered temporary.

Contact at Regional Board:
Talitha Sweaney (909) 782-3219 file # 302003-11-APF

Applicant:
City of Yucaipa

Agent:
Chambers Group, Inc.

Project Name:
Chapman Heights Road Extension

Receiving Water:
Yucaipa Creek

Project Description:
The applicant proposes to extend Chapman Heights Road for less than a mile. The extension of Chapman Heights Road would cross one unnamed jurisdictional ephemeral drainage. At the proposed crossing, this drainage is confined to a 4-foot-wide, concrete-lined channel. The project would entail replacement of this 4-foot-wide-concrete-lined channel with a 4.5-foot-wide- culvert (150 feet long), per flood control specifications. The replacement of this concrete lined channel with a culvert would not adversely affect water quality standards onsite, and following the implementation of best management practices, would not be expected to adversely affect beneficial uses downstream.

Contact at Regional Board:
Talitha Sweaney (909) 782-3219 file # 362003-6-TIS

Applicant:
San Bernardino County Department of Public Works

Agent:
none

Project Name:
Debris removal in Lytle Creek Wash

Receiving Water:
Lytle Creek

Project Description:
The applicant will employ a bulldozer to remove two separate debris cones from Lytle Creek Wash at Glen Helen Parkway in the Devore area. The project will impact approximately 400 linear feet of stream bed and bank.
